EDUCATION

Bina Nusantara University – Tangerang, Banten	September 2023 - Present
School of Computer Science - Bachelor of Computer Science	
GPA: 3.76 / 4.00 (4 th Semester)	
Streaming: Intelligent Systems	
Relevant Coursework: Artificial Intelligence; Machine Learning; Deep Learning; Natural Language Processing; Speech Recognition; Computer Vision; Software Engineering; Database Technology	
Maitreyawira Highschool Batam – Batam, Kepulauan Riau	July 2020 – Juny 2023
Mathematics and Natural Science – High School Diploma	

PROFESSIONAL EXPERIENCE

SASC Bina Nusantara University – Scholarship Mentor Awardee	September 2025 - Present
- As a dedicated mentor, I successfully met the program's strict criteria, maintaining a GPA above 3.5 and earning no grades below B-. My role was to provide essential academic support and mentorship to my assigned mentees, focusing on improving their academic performance while also maintaining my own academic. - For my contributions, I was awarded a full scholarship covering 16 credits for one semester. This experience was incredibly rewarding, allowing me to develop valuable skills in teaching and mentoring, public speaking, and communication.	

LEADERSHIP EXPERIENCE

Keluarga Mahasiswa Buddhis Dhammavaddhana – Project Manager of Malam Keakraban 2025	December 2024 - March 2025
- Led a team of 31 people (27 committee members and 4 volunteers) to successfully organize the "Malam Keakraban 2025" event, demonstrating strong Leadership and Teamwork. - Organized the "Malam Keakraban 2025" event, gathering 150 participants from diverse regions including Alam Sutera, Kemanggisian, and Bekasi. Showcasing excellent Project Management and Event Management skills through detailed planning, effective task delegation, and proactive problem-solving, which ensured a memorable experience for 150 participants.	

PROJECTS

Published Paper at ICITCOM 2025 – Certificate	Deep Learning Data Analysis Public Speaking
- Title: Analyzing Deep Learning in Quick, Draw!: A Case Study on Hand-drawn Sketch Recognition - This research paper investigates alternative deep learning models that could surpass the performance of the traditional Convolutional Neural Network (CNN) used in Google Quick, Draw! game for hand-drawn image recognition.	
VISPA – Website – GitHub	Computer Vision Machine Learning Figma
- VISPA is an interactive sign language learning platform designed to help users learn sign language through a combination of video lessons, interactive quizzes, and real-time sign detection - Responsible for training and optimizing a Random Forest model for real-time sign language detection on the VISPA platform. This involves collecting, preprocessing, and tuning the model to achieve high accuracy in recognizing various hand gestures and signs. - Designed the user interface and experience for VISPA using Figma, ensuring an intuitive and seamless learning journey. This role includes creating interactive mockups, developing user flows, and iterating on designs to enhance user engagement for video lessons and quizzes.	
TenseSense – GitHub	Natural Language Processing Machine Learning React.js
- TenseSense is a smart tense detector that helps you identify and correct English tenses in your writing. It uses advanced AI to analyze text and pinpoint any inconsistencies, making it easier for you to write with perfect grammatical accuracy. - Powered by a sophisticated Support Vector Machine (SVC) learning model, TenseSense goes beyond basic grammar checks to provide you with an unparalleled level of accuracy.	
ALXOD – GitHub	Machine Learning React.js Tailwind
- Developed a full-stack Tic-Tac-Toe game featuring a dynamic React front-end with Tailwind CSS for a responsive, user-friendly interface. - Engineered a challenging AI opponent using a Python back-end with a Decision Tree machine learning model, ensuring intelligent and strategic gameplay.	

SKILLS

Programming Languages: Python, C, Java, JavaScript, SQL, HTML, CSS Developer Tools: VSCode, Google Colab, DevC++, Eclipse, Git, XAMPP, Supabase, Vercel, Figma Libraries/Frameworks: ReactJS, Vite, Pandas, NLTK, Scikit-learn, TensorFlow, Torch, Keras, TailwindCSS Soft Skills: Leadership, Teamwork, Public Speaking, Teaching, Project Management Languages: Native Indonesian Speaker; Fluent in English; Elementary in Mandarin
